THE FRENCH NURSERY COMPANY - CLYDE, OHIO

TERMS OF SALE

GUARANTEE

We give no warranty, expressed or implied, as to description, quality, growth, productiveness, or any other matter, of any stock we sell. It is mutually agreed that our total liability for untruthfulness to name shall be limited upon satisfactory proof, to free replacement, or refund of the purchase price plus interest.

REPLACEMENT

It is the desire of the French Nursery Company to satisfy every customer, and has been our policy for eighty-eight years. We guarantee our stock to reach the customer in good condition, and we will replace absolutely free any stock that does not reach the customer in good condition, providing we are notified immediately upon arrival of order, so that we can make claim with transportation company.

We do not replace nursery stock that fails to live. Possible neglect of planter and unavoidable climatic conditions prevent guaranteeing trees and plants to grow. We will, however, replace at one-half the current cash rate prices, any trees that die the first summer if the customer notifies us before August first following.

TERMS

Prices listed cancel all previous prices and are subject to change without notice. All offers are made subject to supply. All shipments will be Cash on Delivery unless cash is paid in advance of shipment. Small trees and plants may be sent by mail. Where Parcel Post shipment is desired, there is an additional charge for postage.

Add 10¢ to \$1.00 order
Add 15¢ to \$2.00 order
Add 25¢ to orders over \$2.00

The customer pays transportation charges on freight and express shipments. In Ohio there is a 3% sales tax on all orders that are not used for home consumption. Fruit trees and small fruits are tax exempt.

TIPS ON DISTANCE TO PLANT : NUMBER PER ACRE FOR SMALL AND LARGE FRUIT TREES, ASPARAGUS, ETC.

Distance for planting - Square Method

Distance for planting different kinds of fruit trees, etc., square method:

Peach - 20 feet apart each way
 Standard Apple - 35 feet apart each way
 Cherry, Sour - 18 feet apart each way
 Cherry, Sweet - 20 feet apart each way
 Standard Pear - 20 feet apart each way
 Plum - 20 feet apart each way
 Grape Vines - Rows 8 feet apart, 8 feet apart in row
 Currants and Gooseberries - Rows 4 feet apart, 4 feet apart in row
 Blackberries - Rows 6 feet apart, 6 feet apart in row
 Black Raspberries, Garden culture - 4x3 ft.
 Black Raspberries, Field culture - 7x4 ft.
 Red Raspberries, Garden culture - 4x3 ft.
 Red Raspberries, Field culture - 7x3 ft.
 Strawberries, Field culture - Rows 4 feet apart, 1½ feet apart in row
 Strawberries, Garden culture - Rows 2 feet apart, 1 foot apart in row
 Asparagus, in Field - Rows 5 feet apart, 2 feet apart in row
 Asparagus, in Beds - Rows 1½ feet apart, 1 foot apart in row

Rules for Other Distances

Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which, divided into the number of square feet in an acre (43,560), will give the number of plants or trees to an acre.

Number of trees Required to Set an Acre at Various Distances

	Trees per acre
Trees planted 35 feet apart each way	35
Trees planted 30 feet apart each way	49
Trees planted 25 feet apart each way	69
Trees planted 20 feet apart each way	109
Trees planted 18 feet apart each way	137
Trees planted 16 feet apart each way	170
Trees planted 14 feet apart each way	222
Trees planted 12 feet apart each way	302
Trees planted 10 feet apart each way	435
Trees planted 8 feet apart each way	680
Trees planted 6 feet apart each way	1210
Trees planted 4 feet apart each way	2722
Trees planted 3 feet apart each way	4840

Number of Plants Required to Set an Acre at Various Distances

1 x 1 ft.	43,560	4 x 1 ft.	10,890	6 x 1 ft.	7,260
2 x 2 ft.	10,890	4 x 1½ ft.	7,260	6 x 2 ft.	3,630
3 x 1 ft.	14,520	4 x 2 ft.	5,445	7 x 1 ft.	6,222
3 x 1½ ft.	9,900	5 x 1 ft.	8,712	7 x 2 ft.	3,111
3 x 2 ft.	7,260	5 x 2 ft.	4,356

FRENCH'S OWN INTRODUCTIONS

*ALBU - U.S. Plant Patent No. 813

Albu is a sport of J. H. Hale, a large highly colored yellow freestone, ripening in Elberta season. It doesn't have the small "buttons" or small undeveloped peaches at harvest like J. H. Hale. It bears heavy as Elberta, ships and handles well. Many large growers consider it the very best variety in Elberta season. Albu has everything the commercial planter wants - size, quality and color. Albu always commands highest prices. We highly recommend ALBU.

*HARDEE - U.S. Plant Patent No. 120

This variety has demonstrated that it is hardy both in bud and wood far beyond that of Elberta and most of the common varieties. The Hardee ripens at the same time as Elberta. It is a yellow freestone peach of a deep yellow color with a red cheek. It is an outstanding variety for home use, the flavor is exceptionally fine, having all of the desired qualifications for dessert, cooking and the flavor makes Hardee an outstanding variety for canning.

NOTE - Opposite each variety you will note their approximate ripening date, as given by the Government Experiment Station at Wooster, Ohio.

Peach trees are one of our main items, our peach are grown on rich sandy soil, which enables us to produce trees with a wonderful root system, plenty of fibre roots, which are so essential. For the commercial planter we highly recommend the 3-4 ft. 7/16 Caliper, for the Medium Grade or Orchard size.

APPLE & CRABAPPLE 2 YR.
